THAN TRIPEPTIDES

COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

COMMISSIONER FOR PATENTS
ALEXANDRIA, VIRGINIA 22313

SIR:

In response to the Notice of Allowance dated October 9, 2007, Applicants respectfully submit the following comments on the Examiner's statement of reasons for allowance.

In the Examiner's statement of reasons for allowance, the Examiner states "Applicants disclosed a novel enzyme from *Sphingobacterium* sp., having amino acids sequence of SEQ ID NO: 12, wherein the mature form of the enzyme consists of amino acids 21-619. The enzyme is encoded by nucleotides 61-1917 of SEQ ID NO: 11 (its mature form by nucleotides 121-1917)". Although true, Applicants submit that the scope of the claims is broader than these specific sequences. Indeed, the allowed claims permit selection of sequences having substitution, deletion, insertion, and/or addition of one to ten amino acids (see, for example, Claim 1).

Despite the Examiner's error above appearing in the Statement of Reasons for Allowance, Applicants submit that the invention as presently claimed is neither disclosed nor suggested by the cited art. As such, Applicants submit that allowance is proper even if the

Examiner's Statement of Reasons for Allowance improperly reflect the invention as claimed.

Accordingly, Applicants submit that this application may proceed to issuance. Early notification of such action is earnestly solicited.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
